ACBL Debuts New Convention Card.

With the new Alert procedures implemented last year, it was time for the convention card to be overhauled as well. A committee consisting of Danny Sprung, Chris Weigand, Linda Trent, Tom Dressing and Tom Carmichael was appointed to redesign the card. The product of their work is the new card you see here, which the Board approved during their meetings at the Austin NABC.

You may start seeing the new card as soon as now, although it could take several months for the existing cards in circulation to be replaced with the new one. During the transition, either card will be acceptable.

Much of the card should look familiar to those already using an ACBL convention card. The use of names for conventions has been limited where possible. Common abbreviations and terms used on the card are explained in the glossary on the facing page.

We will explain each section in detail over the next few months.

Note that each section is now separated with vertically shaded columns: Overview, Minors, Majors, Notrump, 2 Level, etc.

Rather than starting with notrump openings, the new card arranges opening bids in ascending order.

There are now separate areas for 1♣ and 1♦ opening bids. Those who treat these bids the same, opening the "better minor," don't need to fill out the minor sections twice; there is a check box which indicates "same as over 1♣."

The section on defensive carding methods has been greatly expanded with separate areas for leads against suits and notrump, carding and signals.

More room is given to explain general style for preempts and what is to be expected from a balanced opening bid.

The new Alert procedures have been incorporated with the same color coding: red = Alert, blue = Announce.

The new card contains many improvements designed to help opponents locate desired information efficiently and help partnerships with their own agreements. While it may seem like a lot of information – especially at first – it's perfectly fine to only fill out the areas that apply to your partnership.

Each of the next several months we break down a section of the new ACBL convention card. See pages 18-19 of the March issue for the complete card and a glossary of terms and abbreviations.

OVERVIEW

The very first box is for the pair's general approach (Standard American, 2/1, Precision etc.), which is similar to the old card, but features a new line: Min Expected HCP when Balanced, with spaces to enter numbers for **Opening** and **Responding**. For example, if in your partnership you agree to open all balanced 12-counts and respond with a balanced hand with 6 HCP, then you would write 12 and 6 in the lines provided.

Notrump ranges considered "weak" can range anywhere from as few as 10 up to 15 HCP. Is 13–15 a weak notrump? That is up to your partnership as defenders to decide.

Some partnerships play weak notrump when nonvulnerable and strong when vulnerable, or in different seats (weak in first or second, strong in third and fourth). Checking this box is not meant to describe the variability, just to alert the opponents of its existence.

Next, we have Forcing Open , with	General Approach Min Expected HCP when Balanced: Opening Responding Forcing Open: 1 - 2 - Other 1NT Open: Str 🗆 Wk 🗆 Variable 🗆				
the normal 1 A and 2 options, plus Other. There are boxes to check whether your 1NT openings are strong, weak or variable. Strong generally includes any notrump range with 14 as its lowest possible.	Bids That May Require Preparation. Kind of like a "pre-Alert," this space is available for you to include artificial bids that your opponents may want to discuss their defense to in advance. A good example is Flannery, an opening bid of 2 ♦ which shows 11–15 HCP with five hearts and four spades. Again, there is room below to articulate your methods. This is just to summarize your system.				
MINORS	Indicate your agreed-upon Minimum Length by checking the appropriate box in the top row. The area for Responses has been expanded for you to detail your methods. The $1 $ /1NT/2NT section is very similar to the old card. How does your partnership raise $1 $ /1? Is a single raise invitational or better? Is it game forcing?

Two-level opening bids

The 2.4 box has something new that is important: **Very Strong vs Strong**. Some extra terms and options have been added to the new card to reflect this. The old card simply had options for 2.4 as "strong" and "other." There are now restrictions on 2.4 openers that didn't exist before. Not all events allow a **Strong** artificial 2.4 opening bid. If it is allowed, it must be Alerted.

Very Strong: A hand that contains: at least 20 HCP, or at least 14 HCP and is within one trick of game, assuming suits break evenly among the other hands, or at least 5 Control Points (Ace = 2 points, King = 1 point) and is within one trick of game, assuming suits break evenly among the other hands.

Strong: A hand that contains: at least 15 HCP, or at least 14 HCP and meets the Rule of 24 (number of cards in two longest suits plus number of high-card points must be at least 24), or at least 5 Control Points and is within one trick of game, assuming suits break evenly among the other hands.

Natural: Many strong-club systems such as Precision use a 2 **4** opening bid to show a limited hand with a five-card or longer club suit.

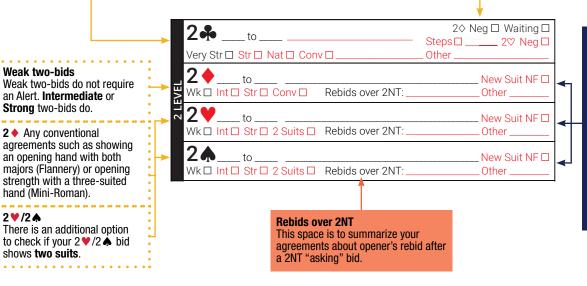

Conventional: If your 2 **A** opening bid is anything other than **Very Strong**, it must be Alerted and fully explained.

- Responses to 2 ♣
- 2 Neg or Waiting: No Alert required.

Steps: There is a line next to the Steps box to indicate if you play steps showing levels of high card points or Control Points-showing steps.

2 ♥ Neg: If you play 2 ♥ as an artificial negative bid, then you must Alert.

Other Use this space for a general explanation of conventional responses to a natural or conventional **2** opening bid.

Responses to two-level opening bids vary. Over weak two-bids, many play 2NT as asking for a feature or Ogust (a method of describing opener's suit and hand quality which employs artificial step responses). If a **New Suit** by responder is non-forcing, that is an Alert and the box should be checked if that is your partnership agreement. **Other** is for any conventional response to a two-level opening bid.

In each of the next several issues, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March issue for the complete card and a glossary of terms and abbreviations.

What used to be called OTHER CONVENTIONAL CALLS is now Jump Shift Resp The old card had only two options: Weak Jump Shifts NMF (New Minor Forcing) In Comp and Not in Comp. There are After any auction that begins just **OTHER**. While several common conventional gadgets are specifically mentioned, there are extra lines provided 1m–1M; 1NT, responder also fit-showing jumps, artificial raises, bids two of the other minor mini-splinters and differences as to to ask opener to clarify their whether responder or advancer is an unpassed hand or a passed hand. major-suit holdings. There is plenty of room (1Rnd or GF). this space. to describe your partnership's agreements, if any.

In each of the next several issues, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March issue for the complete card and a glossary of terms and abbreviations.

B ridge is very competitive. Uncontested auctions are increasingly uncommon as players often enter the bidding with very few high-card points. Yet, for all the bidding that can occur at low levels, many doubles there are played as something other than penalty. There are more opportunities to use these versatile doubles as showing the unbid suits or support for partner than a desire to defend.

Negative and responsive doubles tend to show support for the unbid suits. For exam-

> For Negative, Responsive and Support doubles, check the box and indicate how high you play that type of double. For example, if you play Responsive doubles through 4 ♦, check the box and write 4 ♦ in the line next to "Thru." Note that Support doubles and redoubles (RdbI) are not in red and no longer require an Alert.

ple, if partner opens the bidding 1 A and your RHO overcalls 2 A, a double by you shows length in hearts and clubs. A typical responsive double is when your partner makes a negative double (showing length in the unbid suits), and you would like to compete but have no clear direction, so you double.

Support doubles occur when partner opens the bidding, you respond in a suit and there is competition. Your partner, the opener, can double or redouble to show exactly threecard support for the suit you bid.

You	LHO	Partner	RHO
		1♣	Pass
1♥	1♠	Dbl	

Most partnerships play support doubles through to a lower level because it could be that you have a seven-card fit. For example, if the intervening bid had been 2, you and your partner need to discuss whether the double would still be support.

Immediate Penalty doubles at low levels are so rare that they do require an Alert.
Negative Thru Penalty Responsive Thru Maximal Support Thru Rdbl T/0 Style

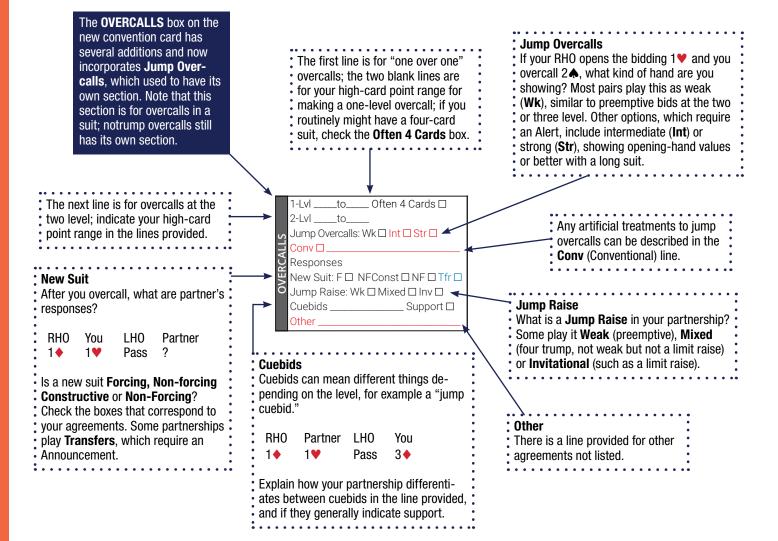

Maximal doubles occur in competitive auctions, typically after the opponents interfere and take up bidding room. In certain situations (usually at the three level), a double of the opponents' suit becomes a game try. A classic example:			
You LHO Partner RHO 1♠ 2♥ 2♠ 3♥ Dbl			

Some pairs define a double by opener as a hand with game interest.

Other Any other type of conventional double in your partnership agreements can be written in this line.

T/O Style This line isn't to let the opponents know if you prefer Chinese or Thai food, it's your "takeout double style." Some partnership agreements on takeout doubles include offshape hands, balanced hands, "card-showing" doubles or takeout doubles with hands that are less than opening strength. Your partnership's general approach to takeout doubles can be noted on this line.

In each of the next several issues, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March issue for the complete card and a glossary of terms and abbreviations.

In each of the next several issues, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March issue for the complete card and a glossary of terms and abbreviations.

When your LHO opens one of a suit, and your partner bids two of the same suit, that is a direct cuebid. What does it mean? With the proliferation of "could be short" and artificial minor-suit opening bids, the new card has more options for your partnership to indicate if you have different agreements depending on your opponent's opening bid. Note that 1♥ and 1♠ opening bids are always treated as natural.

¥.Q.

The next column is for Quasi-Natural ("Quasi") 1♣ or 1 ◆ opening bids, which could be balanced hands with two or more of the bid suit or natural length. Opponents who play a quasi-natural opening bid are required to pre-Alert along with announcing, "could be short as X." Again, you have the option of Michaels, Natural or Other for your direct cuebids.

If your opponent opens a "could be as short as zero" 1, does 2, by you show diamonds? Then you would check the **Natural** box. If a direct cuebid is something other than Michaels or Natural, you would check the **Other** box. The first column is for Artificial ("Art") openings of 1. and 1. Does a direct cuebid by your side show length in both majors? Then you would check the **Michaels** box. What is Michaels? It is a way to show a two-suited hand: A direct cuebid of a minor-suit opening bid shows a major two-suiter. So, the auction 1 - (2) or 1 - (2) shows a hand with length in hearts and spades. The strength requirements vary depending on partnership preferences. After a major-suit opening, a direct cuebid shows length in both the other major and a minor. The sequence 1 - (2), therefore, shows length in both hearts and an undisclosed minor.

	Vs:	Art	Quasi	Nat ♣◊	Nat ♡♠
Ъ.	Michaels				
Ę	Natural				
DIRE	Other Describe				
S	3-Level Style	e (Se	at/Vul))	
ИРТ	Resp				
PREEN	4-Level Style Resp 4♣/4◊ Tfr[

The third and fourth columns are for Natural ("**Nat**") opening bids. If an opponent's 1♣ opening bid is two only if 4=4=3=2, it is deemed Natural. Note that if your direct cuebid is *not* Michaels, it requires an Alert. There is a line for you to describe your agreements.

Some partnerships play that opening bids of 4. and 4. are transfers to 4. and 4., respectively. This convention is called Namyats; check the **Trf** (transfer) box if that is your agreement. If those opening bids are something else besides a preempt, write it in the **Other** line.

This section is to indicate your partnership style when making a preemptive opening bid at the three or four level. Typically, these bids promise a hand below opening strength with a seven-card or longer suit. Suit quality and length can depend on seat and vulnerability. There is space to note your general preempting philosophy at these levels. How do you respond to such opening bids? For example, a new suit could be natural and forcing, a control bid in support or even ace- or key card-asking. A new-suit, below-game response that is non-forcing is Alertable.

In each of the next several issues, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March issue for the complete card and a glossary of terms and abbreviations.

.

This section allows you to briefly describe your conventional slam methods. Almost all of these treatments are Alertable, but they are "*Delayed* Alerts." All Delayed Alerts must be explained before the opening lead by either the defending or declaring side.

What is a Delayed Alert and why?

¥.0

In any case where a bid is Alertable, but the bid is 3NT or higher, and the auction is at or beyond opener's rebid, delay the Alert until the end of the auction. Additionally, Control Bids should be Alerted at the end of the auction even if they are below 3NT. Alerts of passes, doubles and redoubles are not delayed regardless of the level of the auction. When behind screens or online, do not delay any Alerts. Because most artificial calls at high levels indicate some slam interest, immediate Alerts (or lack thereof) could potentially benefit the Alerting side more than the non-Alerting side.

the ding	4♣ Gerber The Gerber convention is an ace-asking bid. Typically, it's a jump to 4♣ after an opening notrump sequence or after a notrump rebid. Some use it after a fit in a suit has been found. All three options are available for you on the new card: Directly Over NT such as: 1NT-4♣ or 2♣ -2♠; 2NT-4♣. Over NT Seq such as: 1♠ -1♥; 2NT-4♣ Non-NT Seq such as: 1♠ -3♠; 4♣ Note that the first two examples are not Delayed Alerts, but the third one is.	A "Control Bid" is an ace or a king (or, if in a suit contract, a void or singleton). An ace or void is a first-round control, a king or singleton is a second-round control. Indicate your partnership style in the line provided. Vs Interference When t opponents interfere with ace- or key card-asking tion, there are conventio methods available to har the interference. Use this to describe your agreem such as DOP1 (Double w zero, Pass with one) or D (Double with Even, Pass	he your auc- nal ndle s line ents, ith DEPO

you are now in the "direct seat" in terms of overcalling. If RHO opens at the one level in a suit, you have a **Direct 1NT** bid available to you. Most people play that a direct seat overcall of 1NT If you play **Systems On**, for shows just what it would if you opened example Stayman and transfers. a strong notrump - maybe even a little check the box. better – 15–18 HCP. Notrump overcalls **Conv** There are conventional do not require an Announcement of your treatments of a 1NT overcall; high-card point range. If a partnership for example, "sandwich noagreement allows for "ostensibly natutrump" is often used to show ral" notrump overcalls that do not meet a two-suited hand. If you play the definition of Natural (hands which Direct 1NT _____ to _____ Systems On □ sandwich or anything else contain a small singleton or 10 cards Balance 1NT _____ to _ Systems On □ that doesn't mean a balanced in two suits), it is both permitted and hand with at least 14 HCP, Alertable. The call is also Alertable if it check the box and describe in Jump to 2NT: 2 Lowest Unbid 🗆 does not show at least 14 HCP. the line provided. Jump to 2NT: 2 Lowest Unbid A jump to 2NT can be used to show the two lowest unbid suits, for example, 1 -2NT to **Other** There is space show diamonds and hearts. This can still apply after the oppofor you to indicate nents have bid two suits, such as 1♥–Pass–1♠–2NT would be When your LHO opens the bidding followed other special agreeby two passes, you are now in the balancing for both minors. ments. seat. Because it's more likely that partner A jump to 2NT that shows the minors when a natural minor suit has been opened is Alertable. This includes if the opponents has some values, some agree to lower the open 1 \clubsuit with a two-card suit only if 4=4=3=2 (which is necessary high-card point requirement to **Balance 1NT**. Again, this does not require an considered a natural call for these purposes). This is new. If the Announcement. opening is guasi-natural or artificial, any artificial two-suited 2NT is not Alertable. A jump to 2NT in direct seat that is Strong is Alertable.

When your RHO has opened the bidding,

In each of the next several issues, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March 2022 issue for the complete card and a glossary of terms and abbreviations.

Previously called "Defense vs Notrump," this is one of the boxes on the new card that is virtually identical to the box on the old card. A handy new element is a line for 2NT. Because many partnerships like to play different systems depending on the strength of the 1NT opening bid (or overcall), there are two columns provided. On the top two "Vs" lines, you might indicate the point-count range that your system defends against, or if you differentiate between direct or balancing seat actions.

Next to each two-level suit bid, indicate what that means in your partnership. For example, if vs a strong 1NT, you play 2 & as a one-suited hand, write "one suit" in the line. But, if vs a weak 1NT, it's both majors, write "majors" or "hearts and spades" in the line. Or, if it's natural, write "clubs" or "natural." Note that these lines are not in red, but if your bid is conventional, meaning anything but natural, or natural but also indicates a second suit, it requires an Alert.

vs TAKEOUT DBL

Your partner opens the bidding and your RHO makes a takeout double. What do your bids mean?

New Suit F "F" stands for Forcing. If a new suit at the two-level by responder is forcing, check the 2 Lvl box.

If a new suit is a transfer to the next-higher suit, check the Tfr box and mark the lowest

- call where transfers start (e.g., 1NT is a
- transfer to clubs) and remember that opener
- must Announce the transfer suit.

double.

Jump Shift Is a jumpshift by responder weak, invitational, forcing or fit-showing? Check the appropriate box and note that fit-showing jumps are Alertable. Redouble If redouble has no

artificial meaning and is valuesshowing, check the 10+ box. If you have a specific partnership agreement about redouble, or if it is conventional, check the box

next to Conv and explain in the line provided.

2NT After your RHO doubles, if 2NT is natural (balanced), or a raise (Alertable), indicate your agreement, the high-card point range you are expected to have and note if you play it differently over your opening bids of 1m and 1M.

In each of the next several issues, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March 2022 issue for the complete card and a glossary of terms and abbreviations.

When your opponent opens the bidding at the two level or higher, how does your partnership handle it? (Note that "preempt" doesn't necessarily mean "weak." Some systems include two-level or higher bids that are "intermediate" or near-average to average strength.)

T/O Double Thru After the opponents preempt, what does a double mean and through what level? For example, if you play double is takeout through $4 \checkmark$, write $4 \checkmark$ in the space provided. If doubles of preempts are for penalty, check the box and Alert.

Jump Overcalls How do you play a jump overcall after a preempt? Describe the strength expected.

2NT Lebensohl Resp After an opponent preempts at the two level and your partner makes a takeout double, what does your bid of 2NT mean? If it is an offer to declare a notrump contract. then it's natural and not Alertable. Many partnerships play a convention called Lebensohl, which has many uses. Playing Lebensohl, a bid of 2NT after partner's double is not natural, it is Alertable and asks partner to bid 3 & . There are many different follow-ups and continuations; be aware of the Alert procedures and explain fully when asked about your bids or before the opening lead. Other There are many

ing a two-suited hand. Indicate your agreement if you have one.

can have different meanings.

overcall? There is enough room

to indicate if you play "systems

it is Alertable.

For one more issue, we'll break down a section of the new ACBL convention card. See pages 18-19 of the March 2022 issue for the complete card and a glossarv of terms and abbreviations.

CARDING The last four boxes of the new convention card are all about your partnership's defensive play agreements. Defense is 50% of the game; the new card has devoted additional space for your partnership agreements. The first options in the CARDING box refer to your count and attitude methods, and whether they vary if you are defending a suit contract or a notrump contract. It is now easier for a partnership to indicate if they play, for example, upsidedown attitude but standard count, and if that changes based on the strain of the contract they are defending.

SIGNALS The first options in the Signals box are your Primary Signals to either declarer's lead or partner's lead. For example, if declarer leads a suit and you agree to give count, you would check the Count box. If your primary signal to partner's lead is attitude, you would check that box. You might even number them in order, for example, Partner's lead: Primary is attitude (1), then count (2), then suit preference (3).

> : Exceptions An

Exceptions An exception to your					
carding might occur if you agree					
to give count or attitude when a					
certain card is led.					

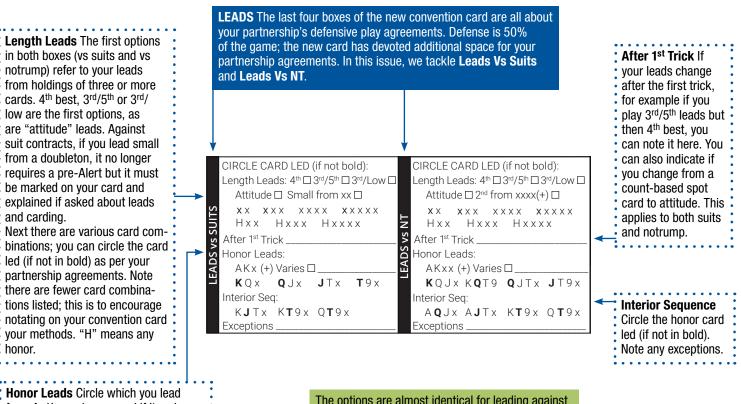

Other Carding If you have Exceptions or Other Carding agreements, there is a line to indicate what those might be, such as Foster echo or upsidedown suit preference.

Smith Echo Smith Echo is a signal in declarer's first led suit that is about a different suit. There are many different varieties; check the appropriate box if you play this convention and indicate any exceptions or agreements in the line provided.

Suits NT Standard – Attitude Standard – Count Standard –	Primary Signals to: Declarer's Lead Partner's Lead Attitude D Count D Suit Preference D Exceptions First Discard: Std D Upside Down D Lavinthal D Odd/Even D Other D	exception to your primary signal might occur when there is shortness in dummy or an obvious switch situation.
Trump Signals If your partnership has an agreement on certain card- ing methods when you follow suit to trump, you may indicate it here. One common example is trump suit preference.	First Discard When you cannot follo discard is an opportunity to tell partr about your hand (or not). If you play a Upside Down, a high or low card is e or discouraging in that suit. Two othe conventions are Lavinthal (the defen in the suit discarded; the size of the whether they want the higher or low suits) and Odd/Even (an odd card en even discourages and could be a suit indicator). There are many Other typ	her something Std (standard) or bither encouraging er popular carding der is not interested spot card indicates er of the other two courages that suit, it preference

plenty of space to note what you play.

This is the last installment explaining the new ACBL convention card. See pages 18–19 of the March 2022 issue for the complete card and a glossary of terms and abbreviations.

The options are almost identical for leading against notrump contracts. If you lead second highest from a four- or five-card suit that does not contain an honor card, there is a box for you to note that.

in both boxes (vs suits and vs notrump) refer to your leads from holdings of three or more cards. 4th best, 3rd/5th or 3rd/ low are the first options, as are "attitude" leads. Against suit contracts, if you lead small from a doubleton, it no longer requires a pre-Alert but it must be marked on your card and explained if asked about leads and carding. Next there are various card combinations; you can circle the card led (if not in bold) as per your partnership agreements. Note there are fewer card combinations listed; this is to encourage notating on your convention card

¥.Q.

your methods. "H" means any honor.

Honor Leads Circle which you lead from A-K-x or longer, and if it varies. One example might be if you normally lead ace from A–K, except at the five level or above you lead the king, asking for count.

Circle the honor card led (if not in bold).
